*Fire-Cured and  
Dark Air-Cured*

# TOBACCO MARKET REVIEW

1970 Crop

(1970-71 Season)

U.S. DEPARTMENT OF AGRICULTURE  
CONSUMER AND MARKETING SERVICE  
TOBACCO DIVISION  
WASHINGTON D.C. 20250

May 1971

BRIEF OF CLASSIFICATION

Type 21: Virginia fire-cured; produced in the Piedmont and Mountain sections of Virginia.

Type 22: Eastern District fire-cured; produced in a section east of the Tennessee River, in southern Kentucky and northern Tennessee.

Type 23: Western District fire-cured; produced in a section between the Tennessee, Ohio, and Mississippi Rivers in western Kentucky and north-western Tennessee.

Type 35: One Sucker; produced in north-central Tennessee and south-central Kentucky.

Type 36: Green River; produced in the northern part of Kentucky in the territory adjacent to Owensboro and Henderson.

Type 37: Virginia sun-cured; produced in central Virginia, north of the James River.

KEY TO STANDARD GRADE MARKS FOR FIRE-CURED AND DARK AIR-CURED TOBACCO

N1L	N2L 2/	S
N1R 2/	N2R 2/	
N1D 4/	N2 4/	
N1G	N2G 2/	

1/ No lengths in Tips, Lugs, and Nondescript (except in Type 21, Length 45 is authorized in X3M, X4M, X5M, X3G, X4G, and X5G if over 20").

2/ Dark air-cured only.

3/ Except in Type 37.

4/ Fire-cured only.

5/ Except in Type 21.

6/ Unsafe order - Sound but containing excessive moisture, likely to damage unless precautions are taken.

Unsound - Damaged under 20 percent.

7/ Type 21 only.

# FIRE-CURED AND DARK AIR-CURED TOBACCO AUCTION MARKETS AND PRODUCING AREAS

REVIEW OF THE FIRE-CURED AND DARK AIR-CURED MARKETS--- 1970-71 SEASON

FIRE-CURED average a record high  
Grade prices higher, except in Virginia  
Quality down, except in Type 22  
Sales volume lower, value up a little

The average price paid for the 1970 Fire-cured crop(Types 21-23 combined) reached an all-time high. The quality of the offerings was not as good as last season's crop except in Type 22. Marketings contained more medium brown and less dark brown and green than the 1969 crop. Grade averages reached record highs in Kentucky and Tennessee but fell below last season's levels in Virginia. Fair to good thin and heavy leaf and fair and low lugs made up the bulk of the sales. Coop receipts were the lowest ever recorded.

The Consumer and Marketing Service of the United States Department of Agriculture reported a net average price of \$54.03 per hundred pounds paid for the 1970 crop, (Types 21-23 combined) -- a record high, topping the old record of \$50.50 per hundred pounds set in 1968 by \$3.53. Net sales for combined fire-cured marketings(including country sales of 6.8 million pounds) totaled 36.9 million pounds -- down about 3.3 million from the 1969 volume. Record high prices in Kentucky and Tennessee raised the value of the crop to \$19.9 million, up a little from the 1969 return of \$19.7 million from a sales volume of 40.2 million pounds.

DARK AIR-CURED average second highest  
Most grade averages gained  
Quality improved, except in Type 35  
Sales volume and crop's value down

The average price paid for the 1970 Dark Air-cured crop(Types 35-37 combined) was the second highest on record. Quality improved except in Type 35 where more inferior marketings lowered the general quality. Most grade averages showed gains over the preceding season's levels. Colorwise, the shift was from green and dark brown to medium and reddish brown. Fair and good heavy and thin leaf and low to good lugs made up the bulk of the 1970 sales. The sales volume was the lowest ever recorded.

The average price paid for the 1970 crop of Dark Air-cured tobacco (Types 35-37 combined) was \$46.50 per hundred pounds -- the second highest ever recorded for a Dark Air-cured crop and \$1.22 under the all-time high of \$47.72 paid for the 1968 crop. The 1970 average topped the preceding year's price of \$41.16 by \$5.34 per hundred pounds. Net sales (including country sales of 347,530 pounds) totaled 16.4 million pounds -- down about 3.1 million from the 1969 sales. The 1970 crop was valued at \$7.6 million -- the lowest return since 1967 and down a little from last season's \$8.1 million.

1/ All known marketings by producers. This figure may vary slightly from estimates of the Crop Reporting Board, SRS, as the Board takes into consideration all tobacco grown, whether or not sold and regardless of place of sale. (Types 22,23 and 35 include country sales).

The average loan level of the 1970 Fire-cured crop was 46.6 cents per pound compared to 44.6 cents for the 1969 crop. For the 1970 Dark Air-cured and Sun-cured crops the level was 41.4 cents compared to 39.7 cents in the preceding season. The 1971 Fire-cured crop will be supported at an average level of 48.5 cents and the Dark Air-cured and Sun-cured at 43.1 cents, an increase of about 4 percent for all Types over 1970 levels.

Ranges for the Types were as follows:

Fire-cured Type	1970 Crop	1969 Crop
	Cents per pound	Cents per pound
21	22 to 68	20 to 68
22	28 to 67	26 to 66
23	28 to 67	26 to 66
Dark Air-cured		
35	28 to 58	26 to 56
36	28 to 58	26 to 56
37	17 to 64	16 to 63

Deliveries of the 1970 Fire-cured crop to the Associations under the Government loan program totaled only 153,000 pounds or .4 percent, the lowest level ever recorded. No tobacco went under loan in Type 23. About 1.9 million pounds or 4.9 percent of the 1969 crop went under loan. Dark Air-cured and Sun-cured deliveries were 1.0 million pounds--about 6.4 percent of the net sales. In 1969 about 4.8 million pounds or 24.4 percent went under loan. See tables on pages 5 and 56.

Opening and closing dates. The 1970 season for the 17 operating markets got underway on December 1, 1970 and ended on March 3, 1971 with final sales at Clarksville and Springfield, Tennessee. See table 1 on page 7.

Data for Types was as follows:

Type	Number of markets	Opening date	Closing date
21	3	Dec. 8, 1970	Feb. 11, 1971
22	3	Jan. 12, 1971	Mar. 3, 1971
23	2	Jan. 11, 1971	Feb. 12, 1971
35	5	Dec. 5, 1970	Jan. 20, 1971
36	3	Dec. 1, 1970	Jan. 21, 1971
37	1	Dec. 8, 1970	Jan. 29, 1971
Total	17	Dec. 1, 1970	Mar. 3, 1971

Inspection and market news. Federal inspection and market news services, in effect on all markets, provide the grower with information as to the quality of his tobacco according to Federal grade and the current price at which such grade is selling. (All baskets of tobacco are inspected and graded by Government officials prior to sales and the price reports are made available to the grower on the auction floor). The program operated under the authority of the Tobacco Inspection Act (approved on August 23, 1935) offers growers free and mandatory inspection on auction markets designated by the Secretary of Agriculture for such service following favorable referendums of growers selling on such markets.

Marketing quotas. The 1971 and 1972 crops of Fire-cured and Dark Air-cured tobacco will be price supported as a result of the favorable referendum held on February 16-20, 1970 when voters approved marketing quotas for three years. Virginia Sun-cured (Type 37) voters approved quotas for the 1971, 1972 and 1973 crops in a referendum held February 22-26, 1971.

Acreage allotments are shown below:

Type	1971 Crop	1970 Crop	1969 Crop
21	12,612	11,685	10,322
22	27,298	27,170	27,012
23			
35	11,404	11,304	12,654
36			
37	2,218	2,361	2,558

The 1971 allotment for individual farms will be about the same as in 1970 except for Type 21 (Virginia Fire-cured) where allotments will be about 10 percent more.

Continued -

Table 15.- Season average prices per 100 pounds of tobacco, by types, in the fire-cured and dark air-cured areas, volume of sales by grades, and schedule of loan rates, 1970 and 1969 crops.

1/ Averages based on auction sales, including Association deliveries at advance prices.

2/ For key to standard grade marks see brief of classification on page 2.

3/ Commodity Credit Corporation loans made available to growers through cooperative associations as follows:

Type 21: Dark Tobacco Sales Cooperative, Farmville, Va.

Type 22: Eastern Dark-fired Tobacco Growers' Association, Springfield, Tenn.

Type 23: Western Dark-fired Tobacco Growers' Association, Murray, Ky.

Type 35: (Eastern Dark-fired Tobacco Growers' Association, Springfield, Tenn.

Type 36: (Western Dark-fired Tobacco Growers' Association, Murray, Ky.

Type 37: Stemming District Tobacco Association, Henderson, Ky.

Type 38: Sun-cured Tobacco Marketing Cooperative, Inc., Richmond, Va.

Note: Tobacco grades "U"(unsound), "DAM"(damaged), NK, No-G(no grade), botched, nested, or off-type was not accepted. Tobacco graded as follows was accepted at 20 percent below the otherwise applicable loan rate; "W"(unsafe keeping order), in Types 21,22,35 and 36. BH (bigheads) in Types 35 and 36, and BL(broadleaf) in Type 35.

4/ Data on pounds show only the approximate quantity of tobacco contained in each grade and are not an accurate record of sales; additional miscellaneous sales, including damaged, off-type, unsafe order, unsound and etc. were as follows:

Crop	Type 21 Pounds	Type 22 Pounds	Type 23 Pounds	Type 35 Pounds	Type 36 Pounds	Type 37 Pounds
1970	534,136	352,870	244,082	1,525,341	605,709	154,029
1969	647,366	567,837	477,432	755,442	212,739	117,200

1975										

1/ Prior to 1960, price support legislation provided that loan levels be the higher of (1) minimum levels announced before planting time or (2) 90 percent of parity as of the beginning of the marketing year. However, loans on (a) fire-cured (b) dark air and sun-cured were not based on their parities, but were set at 75 and 66-2/3 percent respectively of the burley support(marketing year beginning Oct. 1): except that, beginning with the 1958 crop, loans should not exceed the 1957 levels, unless 90 percent of their respective parities exceeded such levels. Legislation enacted in February, 1960, provided that the levels for the 1960 crop be the same as for the 1959 crop.

2/Minimum level announced before planting time--slightly higher than 90 percent of parity as of Oct. 1.

3/Beginning with the 1958 crop, parities were separated for type 21 and types 22-23

Table 17.-Fire-cured and dark air-cured tobacco received under Government loan program, and percentage of net sales, crops of 1946 to 1970.
